

The Santa Clara Valley Water District has recently updated our water conservation programs to help you save water:

Landscape Rebate Program

On July 1, 2016, the Santa Clara Valley Water District reinstated the Landscape Rebate Program and is now accepting new applications. Sites wishing to participate in the rebate program must complete a pre-inspection and submit an application for approval **before** beginning any work on their project.

Landscape Conversion Rebate Program

Santa Clara County single family homes, multi-family and business/institutional properties with qualifying irrigated landscape (i.e., irrigated turf or functional swimming pool) can receive a rebate of \$1/sq foot for converting high-water-using landscape to low-water-using landscape. This amount may be higher in some cost-sharing areas.

For more information or to schedule a pre-inspection, please call the Water Conservation Hotline at (408) 630-2554. All applications issued a Notice to Proceed on or after July 1, 2016 will be held to a total rebate cap (for both the Landscape Conversion Rebate and the Irrigation Equipment Upgrade Rebate combined) of \$2,000 for Single Family and Multi-family (4 or fewer units) and a \$20,000 for all Commercial sites and Multi-family (5 or more units).

Irrigation Equipment Upgrade Rebate

Rebates are offered for replacing old, inefficient irrigation equipment with new, qualifying high efficiency equipment, including the following:

- Install a dedicated landscape meter,

flow sensor or hydrometer for a rebate up to \$1,000.

- Replace old sprinkler nozzles and bodies with high efficiency sprinkler nozzles (up to \$5 each) and rotor sprinklers or spray bodies with pressure regulation and/or check valves (up to \$20 each).
- Convert existing pop-up sprinklers to an in-line drip irrigation system for a rebate of \$0.25 per square foot.
- Convert an existing timer to a qualifying weather-based irrigation controller (rain sensor required) for a rebate up to \$300 (for a 1-12 station controller), \$1,000 (for a 13-24 station controller) or \$2,000 (for a 25+ station controller). Rain sensors are rebated up to \$50.

See above for pre-inspection and rebate cap information.

Landscape Survey Program

Commercial, industrial, institutional, and multi-family complexes within Santa Clara County may be eligible for a free landscape field survey. Professional irrigation auditors perform free site evaluations to assist large landscape sites better manage and improve landscape water usage.

To find out if your site can benefit from a landscape field survey, please call (408) 630-2684.

every gallon wisely.**

Graywater Laundry to Landscape Rebate Program

Receive up to \$200 per residential site for properly connecting a clothes washer to a graywater system. Before you begin your project, it is necessary to complete the pre-inspection questionnaire prior to receiving the application. For more information, call (408) 630-2684.

Commercial Rebate Program

Commercial rebates are available for qualifying facilities in Santa Clara County that replace or update equipment which results in a measureable water reduction. The rebate is currently \$4 per 100 cubic feet of water saved per year, or 50 percent of the project cost, whichever is less. For more information about this program, please call (408) 630-2707.

Residential High-Efficiency Clothes Washer Rebate Program

Purchase and install a qualifying Energy Star Most Efficient clothes washer and you may be eligible to receive up to \$150 for a combined water agency and PG&E rebate while funding is available. For more information, visit waterenergysavings.com. City of Palo Alto residents should visit the city's website for more information.

Submeter Rebate Program

Mobile home parks and condominium complexes in Santa Clara County can receive up to \$150 per installed water submeter for changing from a master water meter to individual water submeters. For more information about this rebate program, please call (408) 630-2707.

Commercial High-Efficiency Toilet Direct Installation Program

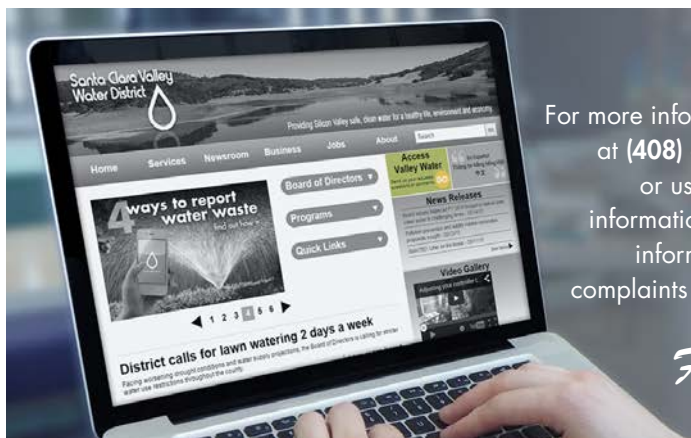

This program provides free installation of high-efficiency toilets and urinal flush valves in the commercial, industrial and institutional sectors, as well as in apartment complexes. Toilets being replaced must flush at 3.5 gallons per flush or more. For more information about this program, please call (408) 630-2707.

Before purchasing equipment or beginning any project, customers should check eligibility requirements at www.valleywater.org or call the water district's water conservation hotline at (408) 630-2554.

All programs are subject to funding availability and certain restrictions apply.
