Stream Maintenance Report

October 24 – November 9, 2017

SMP Permit Status

The Stream Maintenance Program (SMP) runs from June 15 – October 15. The District received an extension to continue working through October 31, and some of the SMP bank protection and sediment removal projects extended into November (which is allowed under the SMP under certain conditions). Staff will submit a final, season summary report to the Board at its November 28 meeting.

Work Status: Work completed during this reporting period and/or on-going sediment removal, bank protection, and minor maintenance SMP projects

WORK TYPE	LOCATION	MUNICIPALITY	DISTRICT (DIRECTOR)	STATUS
Bank protection	Los Gatos Creek upstream of San Fernando Street	San Jose	2 (Keegan)	Completed 10/26/17

Stream Maintenance Report

October 24 – November 9, 2017

Safe Clean Water Priority D1: Management of Revegetation Projects

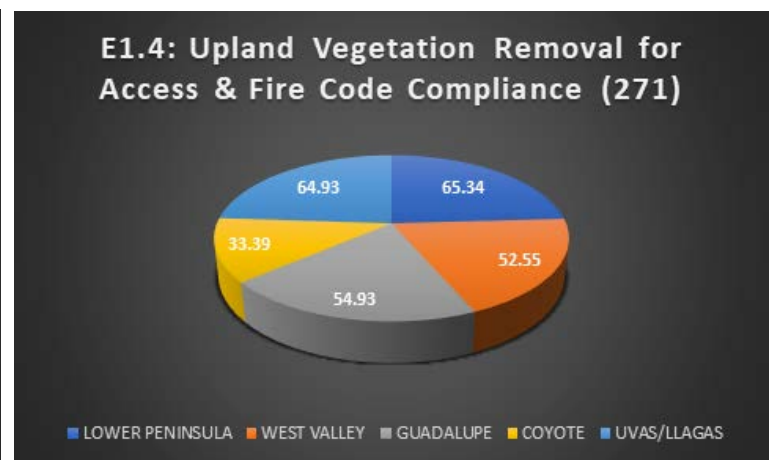

Mitigation Site Maintenance

This Safe Clean Water (SCW) project supports District maintenance of at least 300 acres of existing revegetation projects throughout the five watersheds, and provides for maintenance of future revegetation sites. The chart to the left shows the work completed (in acres) within this reporting period.

Safe Clean Water Priority E.1.1 & E.1.4: Vegetation Removal for Flow Conveyance & Upland Vegetation Removal for Access and Fire Code Compliance

Hand Removal <6", Tree Removal 6 – 12", Routine Pruning, Aquatic Herbicide Application, Access Pruning, Weed Abatement, Upland Herbicide Application

This SCW project supports the District's ongoing vegetation control activities by maintaining flow conveyance, fire code compliance, and access for maintenance personnel and equipment. The charts above show the work completed (in acres) during this reporting period.

The information in this report has been provided by District staff for SMP work between October 24 and November 9, 2017. As information is gathered, some of the data reported here may change.
