

CONTENTS

	Pages
Chapter 1 - Introduction	
1A. General Introduction to the Guidelines and Standards for Land Use Near Streams (Guidelines and Standards)	1.1
1B. Contents of the Proposed Guidelines and Standards	1.1
1C. Application of the Guidelines and Standards	1.2
1D. Purpose and Contents of the Users Manual	1.2
1E. Quick Reference Guide to this Manual: Guidance for Streamside Permit Applicants	1.3
Chapter 2 – Permitting Tools for Guidelines and Standards	
2A. Introduction to the Permitting Tools for Guidelines and Standards	2.1
2B. Streamside Permit Review Process Flow Chart	2.5
2C. List of Exempt Land Use Activities	2.7
2D. Designation of Streamside Review Area	2.9
2E. Definition of a Stream	2.11
2F. Criteria to Identify or Verify a Watercourse as a Stream	2.13
2G. Definition of Top of Bank	2.15
2H. Streamside Resource Protection Questions	2.17
2I. Streamside Resource Protection Questions for Single Family Units (SFU)	2.23
2J. Information to be Included on Plans for Streamside Development	2.29
2K. Resource Agency Referrals for Streamside Development	2.31
2L. Construction-related Permit Conditions for Streamside Permits	2.33
Chapter 3 – Guidelines and Standards for Land Use Near Streams	
3A. Preamble and Introduction to the Guidelines and Standards	3.1
3B. Guidelines and Standards for Land Use Near Streams	3.3
Chapter 4 - Design Guides for Guidelines and Standards	
4A. Introduction to the Design Guides	4.2
4B. Design Guides	4.3
Chapter 5 – Guidance for Homeowners	
5A. How to Plan Your Streamside Project	5.1
5B. Why Consider Local Stream Resources When Building or Remodeling Your Home?	5.1
5C. What Permits Do I Need?	5.2
5D. How to Use the Streamside Permitting Tools and Guidelines and Standards	5.3
5E. Step-by-Step Process for Using the Permitting Tools	5.3

USERS MANUAL

5F.	Slope Stability Protection Area for Single-Family Homes	5.4
5G.	Best Management Practices for Single-Family Homes	5.5
5H.	Technical Assistance	5.7
5I.	Related Information and Programs for Stream Stewardship	5.7

Chapter 6 – Guidance for Developers

6A.	How to Plan Your Streamside Project	6.1
6B.	The Importance of Protecting and Managing Local Streams	6.1
6C.	Benefits of Integrating Streams into Your Site Plans	6.1
6D.	Base Your Site Plan on Local Stream Resource Conditions	6.2
6E.	The Guidelines and Standards for Land Use Near Streams	6.3
6F.	Goals of the Guidelines and Standards and Permitting Tools	6.3
6G.	Project Planning Tips	6.3
6H.	How to Use the Streamside Permitting Tools and The Guidelines and Standards	6.5
6I.	Permits and Technical Assistance from the Santa Clara Valley Water District (SCVWD)	6.6
6J.	Permits and Guidance by State and/or Federal Regulatory Agencies	6.6
6K.	Streamside Planning: How Using Alternative Street Designs Can Preserve Natural Streams and Enhance Streamside Developments	6.7

Chapter 7 – Model Enhanced Practices

7A.	Introduction to Model Enhanced Practices	7.1
7B.	Model Enhanced Practices	7.2

Chapter 8 – Santa Clara Valley Water District Ordinance 83-2

8A.	Introduction and Background	8.1
8B.	SCVWD Ordinance 83-2	8.1
8C.	SCVWD Permit Jurisdiction	8.2
8D.	SCVWD Permit Process	8.3
8E.	Revision of Ordinance 83-2	8.3
8F.	Text of Ordinance 83-2	8.4

Chapter 9 – GIS Mapping Tool to Support Water Resource Protection

9A.	Introduction to the GIS Mapping Tool	9.1
9B.	Instructions on How to Use the Mapping Tool	9.2
9C.	Next Steps for Website Development	9.4

Chapter 10 – Bibliography 10.1

Chapter 11 – Glossary of Key Terms 11.1

Appendix A: Frequently Asked Questions About Guidelines and Standards A.1

Appendix B: Detailed Guidelines and Standards B.1

Appendix C: Slope Stability Requirements for Single-Family Units on Streamside Properties C.1
